

(a) Water surface elevation in system

(b) Dissolved solids concentration in main lake

(c) Dissolved solids concentration in diked impoundment

**Fig. 2 Alternative A model results.**

(a) Cumulative precipitation volume in diked impoundment

(b) Water surface elevation in system

(c) Volume of water in diked impoundment

**Fig. 3 Alternative B model results.**

(d) Dissolved solids concentration in main lake

(e) Dissolved solids concentration in diked impoundment

**Fig. 3 Alternative B model results.**
